

Comrex To Release ACCESS NX Rack

New IP audio codec is AES67 compatible

DEVENS, MA, January 22nd, 2019 -- Comrex will soon release ACCESS NX Rack, a new rackmount IP audio codec. Release is planned for the beginning of 2019.

This rackmount IP audio codec will feature AES67 in addition to AES3 and standard analog I/O. ACCESS NX Rack features a new, user-friendly, web-based interface (that doesn't use Flash). Plus, ACCESS NX Rack includes EBU 3326/SIP modes for compatibility.

ACCESS NX Rack also includes Comrex CrossLock technology, a proprietary suite of tools that solidify connections over IP networks. ACCESS NX Rack is compatible with all Comrex IP audio codecs as well as the Comrex FieldTap app.

Comrex debuted ACCESS NX Rack at NAB 2018. For more information, contact info@comrex.com

About Comrex

Comrex has designed and manufactured broadcast equipment since its incorporation in 1961. Since then, Comrex has consistently developed the most innovative technology to address the specific needs of broadcasters, and create products that enable broadcasters to produce live, local, imaginative remote programming. Comrex strives to provide a simple answer to a universal broadcast need - the transportation of high-quality media to the studio from virtually anywhere, economically, at a moment's notice. As methods of audio and video transportation evolve, Comrex works to develop technology that will allow broadcasters to easily achieve creative and entertaining programming, from diverse and unique locations.
