

Tech Note: Cheat Sheet for Gagl Participants

Gagl requires the use of headsets for all participants. This removes audio distortion that can be caused by acoustic echo cancellation. [Refer to our tech note for more information.](#)

Watch your email for a Gagl invite from gagl@comrex.com (Fig. 1). When it arrives, simply click the link in the email. Don't see the email? Try checking your spam folder, and add gagl@comrex.com to your whitelist!)

Tech Note: Cheat Sheet for Gagl Participants

Gagl Participant Dashboard

Here's an overview of the Gagl Participant Dashboard.

1. **Guest list:** An entry will appear for each Moderator, Guest and codec participating in the Gagl.
2. **Audio Meter:** When a Gagl participant speaks, their audio will be reflected here.
3. **“Mute/Unmute Guest” button:** Mute the local Guest’s output audio to Moderator, Guests and codec.
4. **“Audio Settings”:** Choose the input (microphone) and output (speaker) devices on the local computer/phone. Also allows for a simple audio sanity check.
5. **“Chat”:** Open a text chat window visible to all Guests
6. **“Stats for Nerds”:** Currently providing basic info on participants. Eventually will display connection stats.
7. **“Raise/Lower Flag”:** Sends a notice to the Moderator and other guests that this guest would like to speak.
8. **“Leave Gagl”:** Disconnects local Guest from Gagl. You will be redirected to www.comrex.com.
