

COMREX

WHAT IS Gagl

Gagl is a cloud service that can turn any Comrex IP audio codec into a hub for up to 5 participants

Gagl can run an entire morning show program or be used as a portal for one guest to connect

REMOTE CONTRIBUTION MADE EASY

- Studio uses their existing Comrex IP audio codec (ex: BRIC-Link & ACCESS Rack / NX Rack / MultiRack)
- Guests connect simply by clicking an invite link from their smartphone or computer - we recommend using headsets!

\$35 /month

CHOOSE AN ANNUAL SUBSCRIPTION
AND GET \$70 OFF!

- ✓ High-quality Opus encoder
- ✓ Supports up to five guests
- ✓ Bidirectional audio between all with low delay
- ✓ Easy for your guests to use

No special equipment, software/app installation, or IT degree required!

YOUR LISTENERS WILL THANK YOU
